

Grain Moisture Analyzer mini GAC® and mini GAC® plus

Auburn, Illinois - DICKEY-john is pleased to announce its mini GAC® handheld moisture tester was named 2007 Product of the Year Runner Up by AgriMarketing. The mini GAC and other winners are featured in the November/December issue of AgriMarketing. In 2007, DICKEY-john introduced 2 of the most accurate hand-held moisture analyzers in the world: the DICKEY-john mini GAC® and the mini GAC® plus. The mini GAC®plus is the first DICKEY-john hand-held moisture analyzer that measures both moisture and test-weight (hectoliter weight).

The mini GAC® and mini GAC® plus are both supplied in a strong and stylish carrying suitcase that holds the tester itself, a 9 volt battery, a grain loader for consistent pouring of the grain sample into the cell, a belt clip and a 5 language manual: English, French, German, Spanish and Portuguese.
