

# Ground Speed Sensors

Simple, accurate ground speed measurement in a range of alternatives. Click to find the best option for you.

Advantage	GPS-based speed sensor iSPEED	Product Technology
Independent from wheather and surface conditions, no calibration required, easy mounting	Radar sensor Radar III based on Doppler effect	Proven technology, high
accuracy, light-weight and easy to mount	Hall Effect Sensor: Measurement of shaft rotation based on Hall-effect	Low cost, easy to
mount	Accessories	Product Description
	TSM-10 Tachometer Shaft Monitor/Speed-Engine Hour Indicator
